PROFESSIONAL SUMMARY

Results-driven Computer Science undergraduate with a strong foundation in Python development. Experienced in building scalable backend applications using Python frameworks like Django. Proficient in writing clean, efficient code and developing robust server-side solutions. Passionate about leveraging Python to build reliable and high-performance applications.

TECHNICAL SKILLS

Programming: Python, JavaScript

Frontend: React.js, HTML, CSS, Bootstrap, Tailwind CSS

Frameworks: Django, Django REST Framework

Databases: MySQL

Concepts: REST APIs, JWT Authentication, RBAC, CRUD Operations

PROJECTS

Django Blogging Platform | Tech: Django, HTML, CSS, Bootstrap, SQLite

GitHub: <https://github.com/selvakumarvsk/blogging-system.git> | Live Demo: <https://blogging-system-60op.onrender.com>

- Architected and deployed a full-stack blogging platform using Django following MVC architecture principles.
- Implemented role-based access control (RBAC) with fine-grained permissions for Superuser, Manager, Editor, and Viewer roles.
- Designed scalable CRUD modules for users, categories, and posts using Django ORM and class-based views.
- Integrated Django's built-in authentication and authorization system ensuring secure session management.
- Developed a fully responsive UI optimized for cross-device compatibility using Bootstrap.

Expense Tracker Application | Tech: Django REST Framework, React, Bootstrap

GitHub: <https://github.com/selvakumarvsk/Expense-Tracker.git>

- Designed and developed a full-stack expense management system using Django REST Framework and React.
- Implemented JWT-based authentication with protected routes and secure API endpoints.
- Built RESTful APIs supporting structured CRUD operations with category-based and date-based filtering.
- Integrated interactive dashboard visualizations for expense trend analysis.
- Structured backend using modular architecture with optimized database queries.

EDUCATION

B.E. Computer Science and Engineering

RVS School of Engineering, Dindigul (CGPA – 8.37)

2022 – 2026

Higher Secondary – Computer Science (73.5%)
